RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. OCLC Number: (OCoLC)52571385 Subject: SARS (Disease) -- Research. Excerpt: . . . t Nile virus. We are concerned about the widespread routine use of antibiotics in agriculture for animal feed, and the danger that germs will mutate into forms that are resistant to all forms of antibiotics. Clearly, we need to strengthen our defenses against these perils. Health departments and hospitals across the Nation are taking needed steps to improve preparedness against these modern disease threats. At a time like this it makes no sense for either Congress or the states to be cutting reimbursements to public health agencies and hospitals struggling to face these challenges. Today we will hear about SARS from three of our best experts. Dr. Gerberding has led the CDC through some of its greatest challenges in its history. She has helped protect the Nation against the deliberate use of infectious disease as a weapon, and now the talents of CDC's extraordinary doctors are being mobilized against SARS. One of the points made at the forum on Friday was the extraordinary respect by public health professionals for the job that CDC has...
