Brand New Book ***** Print on Demand *****.The 109th Congress is addressing a broad range of civilian, military, and commercial space issues. The National Aeronautics and Space Administration (NASA) conducts the most visible space activities. For FY2005, NASA received a total of \$16.2 billion (including \$126 million in a supplemental for hurricane relief). The FY2006 request is \$16.46 billion. The future of the U.S. human space flight program is dominating debate about NASA. On July 26, NASA launched the space shuttle for the first time since the 2003 Columbia tragedy, but re-grounded the fleet the next day due to problems during the launch. Pursuant to the Vision for Space Exploration announced by President Bush in January 2004, the shuttle program is to be terminated in 2010. The Vision directs NASA to focus its activities on returning humans to the Moon by 2020 and eventually sending them to Mars. The Vision has broad implications for the agency, especially since most of the money to implement it is expected to come from other NASA activities. Consequently, NASA would need to shift funds away from aeronautics, space science,...
