Gentlemen: - Section six, chapter one hundred eighty-seven, of the General Laws of this State provides that the Railroad Commissioner shall annually report to the General Assembly the condition and proceedings of the several railroad corporations, so far as the public interest may require, with such suggestions and recommendations as he may deem necessary and expedient. In accordance therewith I present the following report. The annual returns of the several steam and electric railroads, organized under the laws of this State or doing business or operating railroads within its territory, will be found in full in the appendix to this report with tables compiled therefrom, giving the more important statistics of their operation. As the law requires, these returns are made up to the 30th day of June, 1906, for the fiscal year ending on that date. The general report, however, is for the calendar year from January 1, 1906, to December 31, 1906. The year 1906 has been a most successful one for the railroads of this country, and in many respects a record-breaker. More miles of new railroad have been builded than in any year except the year 1902; more cars and locomotives have been turned out than in any previous year; and the number of passengers carried has been largely in excess of previous years; and yet there have been more complaints of lack of cars, both freight and passenger, than were ever known.
