ORAL HISTORY FOR THE QUALITATIVE RESEARCHER

Guilford Publications. Paperback. Book Condition: new. BRAND NEW, Oral History for the Qualitative Researcher, Valerie J. Janesick, Oral history is a particularly useful way to capture ordinary people's lived experiences. This innovative book introduces the full array of oral history research methods and invites students and qualitative researchers to try them out in their own work. Using choreography as an organizing metaphor, the author presents creative strategies for collecting, representing, analyzing, and interpreting oral history data. Instructive exercises and activities help readers develop specific skills, such as nonparticipant observation, interviewing, and writing, with a special section on creating found data poems from interview transcripts. Also covered are uses of journals, court transcripts, and other documents; Internet resources, such as social networking sites; and photography and video. Emphasizing a social justice perspective, the book includes excerpts of oral histories from 9/11 and hurricane Katrina, among other detailed case examples. The book will be of interest to qualitative researchers and evaluators in education, psychology, sociology, management, nursing, social work, and communications. It will also serve as a supplemental text in graduate-level courses such as qualitative research, advanced qualitative research methods, field methods, interpretive/critical research, narrative research, and research methods/the dissertation.
