The Fourth Dimension: The Universe Is Alive and We Are Its Awareness. a Revolutionary Scientific Theory.

By Mr Jeffrey T Sharpe

CreateSpace Independent Publishing Platform. Paperback.

Book Condition: New. This item is printed on demand.

Paperback. 226 pages. Dimensions: 9.0in. x 6.1in. x 0.6in. Seekers

of the truth are confronted by many descriptions of what the fourth dimension might be like. But which of these descriptions are just pie in the sky and which of them comes nearest to the truth Scientists point out that if flat two-dimensional beings

existed, a third dimension would solve many scientific problems that would be insuperable for flat beings. It may

therefore seem strange that no-one has described a fourth

dimension that solves three-dimensional problems, which is what this work does. Perhaps science wishes to defend its view

of the universe, which consists of forces, time, mass, particles, gravity, etc. But none of these terms can be defined or

imagined to exist independently of one another; so they cannot

exist at all. They are no more than metaphysical measurements, which sometimes seem related to one another

mathematically. But such relationships have not enlightened

scientists about what causes them. How does gravity make

apples fall to the ground How does time make clocks slow

down when they travel through space What is the mechanism of magnetism, etc....
