

Preparing for the Challenges of Population Aging in Asia: Strengthening the Scientific Basis of Policy Development

By Chinese Academy of Social Sciences, Indonesian Academy of Sciences, National Research Council, Science Council of Japan

National Academies Press. Paperback. Book Condition: new. BRAND NEW, Preparing for the Challenges of Population Aging in Asia: Strengthening the Scientific Basis of Policy Development, Chinese Academy of Social Sciences, Indonesian Academy of Sciences, National Research Council, Science Council of Japan, Preparing for the Challenges of Population Aging in Asia discusses the challenges posed by a rapidly aging population and identifies needed research to help policymakers better respond to them. While the percentage of elderly people in nearly every nation is growing, this aging trend is particularly stark in parts of Asia. Projections indicate that the portion of the population age 65 and older will more than triple in China, India, and Indonesia and more than double in Japan between 2000 and 2050, based on data from the United Nations. Moreover, this demographic shift is coinciding with dramatic economic and social changes in Asia, including changing family structures and large-scale migrations from rural to urban areas. These trends raise critical questions about how nations can develop policies that best support health and economic well-being in large and growing populations at older ages. Governments in Asia still have time to determine the best ways to respond to the unfolding demographic transformation,...
