

Transactions of the American Ceramic Society Volume 12

Filesize: 9.01 MB

Reviews

A very wonderful pdf with perfect and lucid explanations. This can be for those who statte that there had not been a worth reading. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Mr. Stone Kunze)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 192 pages. Dimensions: 9.7in. x 7.4in. x 0.4in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1910 edition. Excerpt: . . . It was found that much better results could be obtained by introducing all the air at one place in a tunnel, and the flues underneath the tracks were 3CC0ldlllgI bricked up. It seemed that with a tender clay there was much less loss when the dry hot air, as it came from the duct, came in contact with the driest brick first. It could not injure these, but did absorb a little moisture, and absorbing a little more, as it passed on, by the time it struck the 1-eally tender brick half way up the tunnel, it was Cilll)lllg suflivient moisture to ll: llll(L its zllnsorlning pner eollsiderably. As a result these brick were not (l and l(k8(l but were (l1-ierl enough to prepare them for the next stage: 1 little further 011. heu the air was lllll0(llll(l l tli1tv feet up the tunnel also. it struck the brick, while still tender and with the shrinkage only pa1tl- out of them, full force with its abs01ptiene. r. unimpairell and m: mv (ll(kP(l brick resulted. In 1e;111lati1g, the (lillll)(llllJ was clone at the exllaust end of the tunnels because it was possible to close the openings there more easily and because the heat made it impossible to take anemomcter readings at the front end. The writers theory has been that permanent 1-egulation--to offset distance from the exhaust fan, to prevent short circuiting, etc. --should be done at the exhaust end, dampers being used over the openings...
