Brand New Book ***** Print on Demand *****.Excerpt from Imagination and Dramatic Instinct: Some Practical Steps for Their Development This book is a study of vocal expression, as the direct revelation of the processes of the mind in thinking and feeling; and as the manifestation of the elliptic relations of thought which words cannot symbolize, such as the convictions, the beliefs, the interest, and the purpose of the speaker. According to this view, vocal expression is a significant, not a symbolic language, and is more subjective, complex, and nearer to Nature than words, and hence cannot be developed in the same way as a symbolic or representative language, nor be made subject to the same mechanical rules. The work is meant to furnish simple and practical suggestions. In nearly every case a poem or selection is placed before the mind of the student, and the remarks made are intended to aid in the study of the extract, and especially in its interpretation by the living voice. To know a thing, we must do it is a fundamental principle of education. The mind must be brought directly into contact with nature. Experiment is the true method of scientific study, but the principle applies even more to literary or artistic work. The student must be set to doing, - explanation must be subordinate, and only for guidance in the discovery or study of the principles for himself in practice. This book is an endeavor to furnish a practical means of studying and training the Imagination and Dramatic Instinct.
